

SDL+GHS

SCHOLARSHIP FOR HEALTH SCIENCES

Dear Hudson High School Class of 2018,

The SDL + GHS Scholarship for Health Sciences was established to provide assistance to outstanding students who will fill New York's health care workforce needs in the future. At SDL + GHS everyday we see firsthand how layered and nuanced the health care industry is, but also how essential every position is within that stratum. So whether you want to be a nurse, pharmacist, policy maker, or public health professional, we want to help you realize that goal.

To apply, complete the attached scholarship application and in the personal statement, provide information on your desire to pursue a health sciences career, what influenced this passion, and examples of your leadership and/or involvement with the industry whether through school organizations, or other extracurricular activities.

Students should send completed applications to resumes@grouphealthsolutions.com with "Scholarship for Health Sciences 2018" in the subject line.

Deadline to apply is April 12, 2018.

Sincerely,

Rob Bujan

Managing Director, SDL + GHS
